

Codes Updates: Registration for every session is open! Seating is limited. Click the City Below for Registration.

AIA Louisiana and ACEC-L are proud to bring this series of codes related training to an area near you!

We thank both the local chapters of each area, as well as **LA Department of Natural Resources** for helping make these sessions a success as well as including discounted rates for attendance!

Both **IBC** and **IRC** have upgrades/updates/changes that took effect January 1st of this year. Are you prepared? Do you know what those changes are? July 1st of this year, Louisiana is on track for their first ever actual **Energy Code (IECC)**. Never having had this before, and with great impacts to the built environment, join colleagues to learn and discuss the changes that will not only impact your projects and business, but your clients and communities as well!

- March 23** **Monroe (Lotus Club)**
- April 12** **Baton Rouge (City Club)**
- June 8** **[New Orleans](#)** (AIA NO Center)
- July 12** **[Lake Charles](#)** (Lake Charles Country Club)
