

Terrazzo Flooring Systems

Wednesday, October 21, 2020

11:00 a.m. – 12:00 p.m.

(1 LU/HSW)

Description:

The purpose of this presentation is to provide general information which will be helpful in specifying terrazzo. The participants will gain an understanding of the various terrazzo systems and how it can be utilized in a variety of design applications.

Speaker:

Gary French
Technical Advisor of the National
Terrazzo & Mosaic Association

Gary received a degree in Chemistry from David Lipscomb University in 1972. He assisted in the laboratory, technical service and product management, developing a number of epoxy formulas for Sherwin Williams. He has been a member of the National Terrazzo and Mosaic Association (NTMA) Technical Committee since 1992, as well as a presenter on resinous materials to concrete for the CSI. Gary has presented over 300 AIA seminars on terrazzo and has written several articles on resinous flooring. Gary is responsible for providing training to contractors of the NTMA, delivering courses on the installation of terrazzo and related issues.
